Fractional CFO Services

Your Finance Backbone for Control, Compliance & Growth

Planning

Monthly budgets, cash forecasts, and expense planning so you never get surprised at month-end.

Numbers

Every business idea, hiring plan, or expansion is first checked for financial impact and affordability.

MIS and Reporting

Every business idea, hiring plan, or expansion is first checked for financial impact and affordability.

Cost and Profit Control

We monitor margins, expenses, leakage, and pricing so profits don't get eaten silently.

Tax and GST Management

GST, TDS, income tax, notices, reconciliations — handled smoothly with zero last-minute panic.

System and Process

Clean books, ERP, automation, invoice flow, approvals finance that runs on systems, not people.

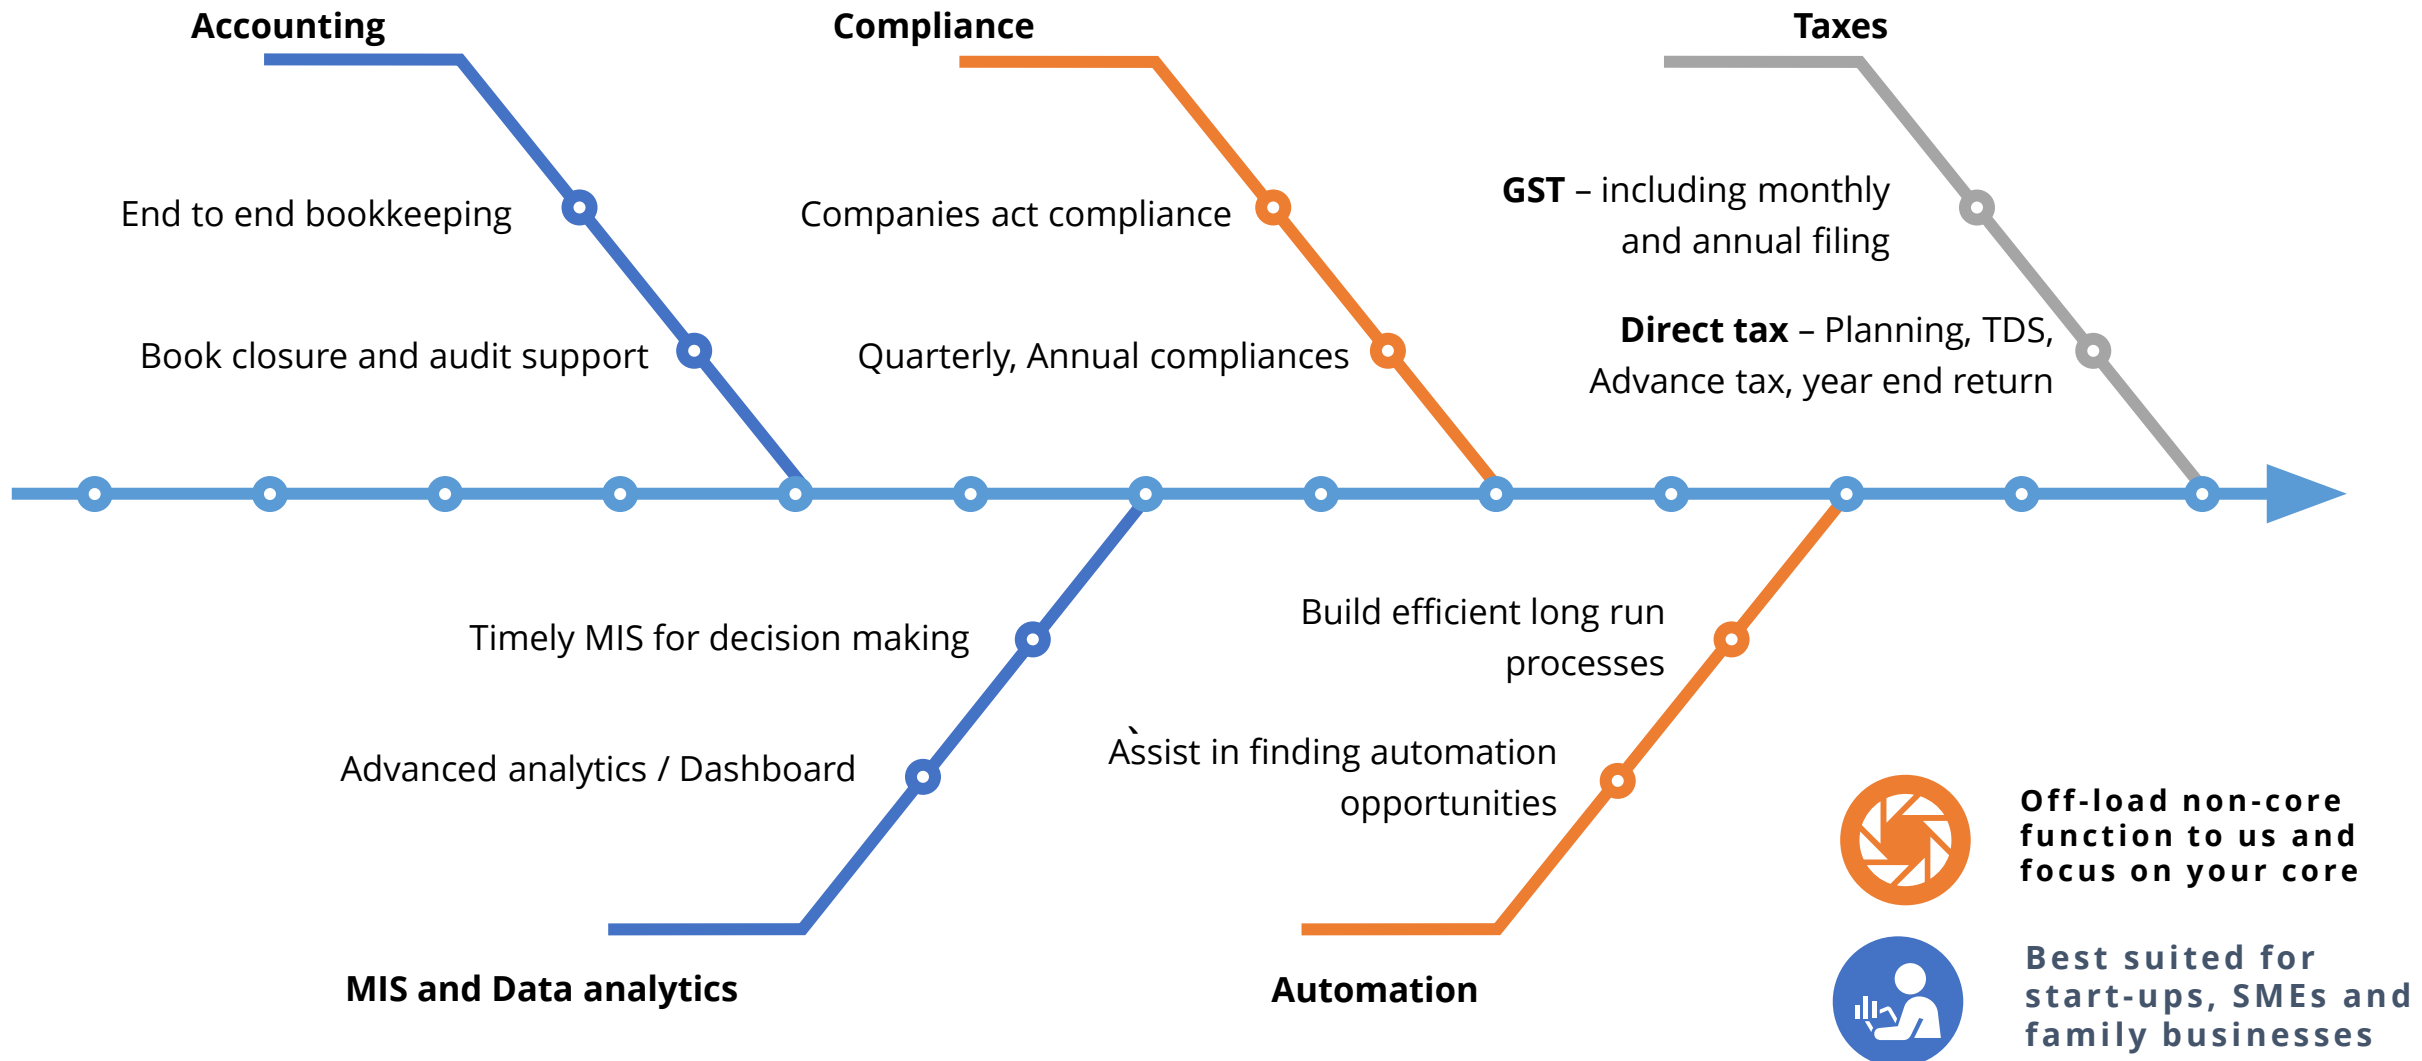

Compliance

ROC, audits, statutory filings, investor reporting — you stay 100% compliant, always.

Improvement

Working capital improvement, faster collections, better cash discipline, stronger financial health.

Commercials:

This phase-wise commercial structure ensures you pay only for what is being built and what is actively managed. The one-time setup cost helps us create a strong, scalable finance foundation, while the monthly retainer covers continuous CFO oversight, MIS, cash management, compliance monitoring, and decision support. This keeps your fixed cost low, removes hiring and attrition risk, and makes the engagement fully flexible as your business scales.

Type	Amount Range (₹)	When Payable
